**NEW COST \$7188.00**

## **Cleveland KET-3 3 Gallon Electric Tilt Steam Kettle 208v 1 ph**

The Cleveland KET-3-T electric 3 gallon tabletop 2/3 steam jacketed kettle is a hard-working, self-contained unit that's easy-to-install and use! Its 3 gallon capacity enables you to prepare mouth-watering batches of stew, pasta, chili, and soup for your restaurant, hotel, or buffet. Thanks to its precise temperature control (less than 2 degrees Fahrenheit of variance), it's ideal for simmering, too!

The Cleveland KET-3-T electric tabletop steam jacketed kettle features welded-in heating elements that hold a vacuum better and won't leak or lose water. Its steam jacket is permanently filled with treated, distilled water, and is rated at 50 PSI, with a rear-mounted safety valve to prevent unintentional operation. All exterior surfaces are made of durable 304 stainless steel.

A splash-proof, solid-state control panel allows simple regulation and monitoring of temperature and heat cycle. It also has a low-water warning. Other special features of the Cleveland KET-3-T tabletop electric steam jacketed kettle include a durable rolled rim that can stand up to abuse, a large capacity pouring lip, and a self-locking, marine-type tilting mechanism that prevents accidental tilting.

This unit requires a 208V, 1 phase, 3 wire electrical connection. 208V will put out 4.1 kW while 240V offers 5.4 kW.

### **Overall Dimensions:**

Left to Right: 20 1/4"

Front to Back: 13 1/4"

Height (to kettle lip): 20"

Height (including handle): 28 7/8"

Capacity: 3 gallons
