RICHIE KOTZEN'S PERSONALLY OWNED & USED TECH 21 RK5 FLY RIG PROTOTYPE – SIGNED CASE + PHOTO INCLUDED

This is one of Richie's actual Fly Rigs — a prototype RK5 unit he personally owned, used, and played, featuring a custom modification he specifically requested during development: a side-mounted OD Style switch.

Straight from Richie Kotzen's personal gear vault, this **Tech 21 RK5 Fly Rig prototype** was used during his collaboration with Tech 21 and features a **non-production OD Style switch mounted on the side**. This isn't a stock unit — it's one of Richie's actual prototype pedals.

The rig comes in its original **Tech 21 metal tin case**, which Richie has **hand-signed**, and includes a **photo of Richie signing the case** for this auction.

Tape label written and placed on the pedal by Richie that reads "Proto Final OD Style Switch"
