Description

Richie Kotzen – “The Master Hands 2016” by Young Guitar

Embossed Collector’s Display – Lightweight Brushed Metal-Style Panel

Straight from one of Japan’s most iconic guitar tributes, this rare Richie Kotzen handprint plaque was distributed exclusively by *Young Guitar Magazine (Japan)* as part of their **limited-edition 2016 “The Master Hands” series**.

This stunning collector’s piece features a **full-scale 3D emboss of Richie’s actual handprint**, complete with his facsimile signature and a raised metallic nameplate.

This is not a print — it’s a sculpted, contoured metal-style display, finished in a lightweight brushed alloy composite. It has the high-impact look of steel with a more manageable, display-friendly weight — ideal for framing, mounting, or shelf presentation.

Size: approx. 10 1/4" x 8 1/4"

Includes full-color reproductions of the original Japanese marketing inserts, highlighting Kotzen’s feature alongside guitar legends like Joe Satriani, Michael Schenker, Nuno Bettencourt, Uli Jon Roth, and Zakk Wylde.

Originally available **only in Japan**, this edition was distributed through Young Guitar Magazine and **very few made it to the U.S.** — making it an incredibly tough find for collectors outside Asia.

Whether you’re a die-hard Richie Kotzen fan, a Mr. Big completist, or just a lover of rare guitar memorabilia, this is one of the most unique tributes ever crafted to a modern guitar hero.
