Description

Boss BD-2 Blues Driver – Richie Kotzen's Personal Stage & Studio Pedal – Used on *Bipolar Blues*

This is **Richie Kotzen's actual Boss Blues Driver (BD-2)** — pulled straight from his personal stash and **used both on stage and in the studio**, including on his **album *Bipolar Blues***.

A staple in Richie's tone arsenal, the BD-2 delivers that **raw, expressive overdrive** that lets your playing breathe—smooth when you back off, snarling when you dig in.

This unit isn't a reissue or a shelf piece. It's been **worked, played, and recorded**, just as it should be.
