LOT 69 - Richie Kotzen's Personal Midiman Syncman Plus – Vintage SMPTE/MIDI Sync Box

Description

Richie Kotzen's Personal Midiman Syncman Plus – Vintage SMPTE/MIDI Sync Box

Straight out of Richie Kotzen's personal archive—this Midiman Syncman Plus was used during his early recording days to lock MIDI gear to analog tape. This is **true 1980s/1990s studio tech history**, and Richie used this exact unit to sync tracks during the era of his **original Shrapnel Records demos** and other early productions.

These units were critical tools in hybrid analog/digital workflows and remain collectible for retro synth heads, studio tech lovers, and hardcore Kotzen fans alike.

Used by Richie himself

From his original personal studio setup

One of the rare remaining relics from his earliest professional recordings
