LOT 72 - Richie Kotzen's Yamaha NS-10M Studio Monitors – Used at Headroom Studios

Description

Richie Kotzen's Yamaha NS-10M Studio Monitors – Used at Headroom Studios

Straight from Richie's private collection—this matched pair of legendary Yamaha NS-10M Studio monitors was used both in his personal studio and inside his commercial recording space, **Headroom Studios**. These speakers have tracked guitar, vocal, and mix sessions for Richie's own albums as well as projects by other artists who recorded at Headroom over the years.

These are **true studio workhorses**, favored by pros for their brutally honest midrange and precision referencing. They're not pristine cosmetically—just as you'd expect from gear that's been **used in the real trenches of recording**—but they're loaded with history and tone.

No replacements. No reissues. These are **originals**, used and trusted by Richie himself.
