LOT 88 - Richie Kotzen 2017 "Salting Earth" Tour Stage Backdrop – 26' x 16' Monster Canvas!

Description

Richie Kotzen 2017 "Salting Earth" Tour Stage Backdrop – 26' x 16' Monster Canvas!

From the world stage straight into your hands — this massive 26-foot by 16-foot tour-worn **Richie Kotzen backdrop** was the official stage scrim used throughout the 2017 *Salting Earth* world tour. Featuring Richie's signature logo and his unmistakable eye logo in a deep blue haze, this backdrop was the literal centerpiece of the stage design seen around the world. NOTE: Some shows the backdrop was too large and those venues the crew opted for digital backdrops. But this is the actual stage used backdrop for every show that tour that it could fit.

Provenance? It's Front and Center.

Check the last images — this exact banner was flown behind Richie and his band during major performances. It's the real deal, not a replica.

Tour-Worn Character

Just like your favorite guitar, this beast has battle scars — scuffs, folds, and stains from road life, the rigors of setup/tear-down, and years in tour trunks. That patina? It's pure legacy.
