 - Also loaded with a **Celestion G12M-65 Creamback**
 - **Marked PROTO2** – Richie's personal development/test cab
 - Used on stage and in studio by Richie

✂ About the RK50C Amp

This was **built for Richie's real-world needs**, not just a logo on the front. It's a **massive single-channel monster** that covers everything from clean and classy to gritty and gainy — all controllable with the flick of a switch and a twist of the wrist.

Designed for **simplicity, power, and musicality**, it gives you the **raw tools** Richie used to sculpt his signature tones.

This is a true one-two punch of tone and provenance.

- ✓ Built for a master.
- ✓ Used by a legend.
- ✓ Offered once.

Don't miss your shot to own one of Richie Kotzen's real-deal touring amp rigs — the way it left his stage.
