LOT 17 - SDT Ultrasonic Detector diagnostic

Description

SDT Ultrasonic Detector diagnostic

DESCRIPTION:

SDT Ultrasonic Detector diagnostic kit. Includes SDT detector, SDT contact probe, SDT transmitter, heavy-duty monitoring headphones, SDT-branded power adapter, signal cable, user manual, and original fitted foam-lined carry case.

Ideal for preventive maintenance, leak detection, bearing inspection, and mechanical troubleshooting using ultrasonic frequency analysis. Unit includes adjustable sensitivity dial, digital LED readout, power and signal indicators, and audio output for use with the headphones.

Made in Belgium.

Quantity: 1
