LOT 26 - DEMAG Overhead Crane Hoist System – 550 LB Capacity – COMPLETE STRUCTURE INCLUDED

Description

DEMAG Overhead Crane Hoist System – 550 LB Capacity – COMPLETE STRUCTURE INCLUDED

Complete **DEMAG electric overhead hoist system**, installed on a freestanding steel support structure with integrated mezzanine section. This is a turnkey crane rack setup—**everything shown is included**, from the hoist to the platform.

System Includes:

- DEMAG electric chain hoist with pendant control
- Traversing trolley and bridge track
- Steel support frame with bolted mezzanine platform
- Integrated electrical and conductor system
- Pendant controller with up/down and travel functions
- Mounted power disconnect, conduit, and switch gear

Bridge marked 550 LB capacity — ideal for part handling, mold transfer, light production lines, or maintenance stations.

Everything included as shown: support structure, overhead rails, platform sections, hoist, electrical, and pendant system.

Buyer is responsible for full disassembly and removal. No runway beams beyond freestanding frame included or needed.

Quantity: 1
