LOT 31 - BADASS WELDING WORKSTATION SETUP – ROTARY TABLE, TOOL STORAGE, BUILT-IN AIR TANK + ½ TON JIB CRANE!

Description

BADASS WELDING WORKSTATION SETUP – ROTARY TABLE, TOOL STORAGE, BUILT-IN AIR TANK + ½ TON JIB CRANE!

This isn't your average workbench—it's a full-blown, industrial-grade, all-in-one fabrication command center. Real American steel, real function, and real value.

Specs:

- **Table Dimensions:** 75" long x 55" wide
- **Overall Height:** 111" to top of jib crane
- **Rotary Table:** Left-side mounted heavy-duty round turntable
- **Built-In Jib Crane:** Welded to frame, ½ TON capacity with trolley
- **Mounted Air Tank:** Integrated compressor tank (green) built under the table
- **Tool Storage:** Locking metal upper cabinet + full set of labeled drawer bins
- **Bench Vise:** Included and bolted down ready for action

This beast was custom-built for serious shop work—grinding, welding, fitting, lifting, and everything in between. Perfect for fab shops, welders, heavy maintenance crews, D-Rock Crews or industrial startups needing a no-BS solution.

New, a setup like this would run you **well over \$7,500**—and that's before shipping and setup. This is a ready-to-rock, plug-and-play unit from a major U.S. facility.

View all images for details. Power, air, and muscle all in one place.
