LOT 72 - ALVEY 800 PALLETIZING SYSTEM w/ ROBOTIC PALLETIZER & CONVEYORS – (5 STATION LINE)

Description

ALVEY 800 PALLETIZING SYSTEM w/ ROBOTIC PALLETIZER & CONVEYORS – (5 STATION LINE)

This is a **massive integrated palletizing system** featuring (5) Alvey 800 stations paired with a robotic pallet stacker and multi-lane powered conveyor system.

Safety rails not included. Only floor conveyor through the system is included, no incline conveyor or overhead conveyor in this lot

Key Components:

- **(5) Alvey 800 Series Palletizer Stations**
 - 460V / 3 Phase
 - Rated FLA: 28.37 amps
 - Designed for automated high-speed palletizing
- **CD Robotics Palletizing Robot System**
 - Overhead gantry-mounted robotic arm

- Precision vacuum pick head and inline motorized rail

- **Full Conveyor Package**

- Heavy-duty roller conveyors with product lanes
- Integrated control panels, powered zones, and transfer modules

Designed for high-volume end-of-line operations. Perfect for packaging, glass, food and beverage, or distribution industries looking for **turnkey automation**.

See all images for full scope and layout. **Everything shown included as one complete system.**

BUYER RESPONSIBLE FOR REMOVAL
