LOT 105 - Vintage Powermatic Variable-Speed Floor Drill Press (480V)

Description

Vintage Powermatic Variable-Speed Floor Drill Press (480V)

Solid old-school American iron from Powermatic. This beast was built back when tools were made to outlive the buildings they were in. Heavy-duty, floor-standing variable speed drill press with vise, power box, and foot pedal controls. Wired for 480V.

No fluff or showroom shine here, but it's built to run hard and outlast the offshore junk. The vise and table have wear from use, but it's all real-world grime

If you're looking for a dependable shop workhorse..... This is it.

Quantity: 1
