LOT 165 - Complete Conveyor & Wrapping Line Systems – Approx. 20,000 Sq Ft of Equipment – One Lot – Buyer Responsible for Removal

Description

Complete Conveyor & Wrapping Line Systems – Approx. 20,000 Sq Ft of Equipment – One Lot – Buyer Responsible for Removal

This is a **massive, fully integrated conveyor and packaging system** spanning approximately **20,000 square feet** within a dedicated warehouse area. All equipment is being sold **as one complete lot** and includes:

Key Components Include:

- Dozens of **powered roller conveyors**, gravity-fed conveyors, and modular transfer systems
- Multiple **heat shrink tunnel systems** and integrated **wrapping stations**
- **Overhead conveyors and accumulation sections**
- Junction control boxes, vertical incline systems, and crossovers
- Assorted powered drive motors and electrical control components

This line was part of a industrial packaging operation purpose-built for high-throughput box handling, sorting, and wrapping.

Entire system is being sold as-is, where-is, as one lot.

⚠ **Buyer is responsible for removal.**

Quantity: 1
