Description

Bid x 840 – Reserve by Libbey Prism 18 oz. Stemless Wine Glass – ClearFire® Glass – USA Made – Master Case

You are bidding x teh glass. Example. Bid 1.00 x 840 = \$840.00

Authentic U.S.A.-Made Libbey Glassware, produced in the historic Shreveport, LA factory just before its permanent shutdown in 2020.

Reserve by Libbey – Prism Series – 18 oz. stemless wine glass featuring Libbey’s patented ClearFire® glass for ultra-clear brilliance, strength, and a luxury feel.

These were high-end production pieces made for commercial and hospitality clients, with a new cost of \$9.18 each. Designed for customization and upscale table service—not available through standard retail channels.

Packed in **28 factory master cases**, 30 glasses per case – **Bid x 840 total glasses**. Pristine stock, untouched since 2019.

Original pricing: **\$9.18 per glass = \$7,711.20 total value**

Please Note:

These master packs were shrink-wrapped but not fully sealed at the time of the

shutdown. During removal, the facility was actively being cleared out and equipment relocated, resulting in some dust and exposure on outer glass surfaces. Original shrink wrap was removed during staging—while unused and factory-packed, a light rinse is recommended before use.

True last-call Shreveport Factory American-made Libbey. Not Mexico. Not China. Never to be produced again in Shreveport.

Quantity: 840
