Description

IN THE BOX Melitta Cafina CT8-F Coffee System

Retails for \$18,887.00 each

NEVER USED / UNOPENED / IN THE BOX

Melitta Cafina CT8-F - 208V 3PH

Two grinders, double the enjoyment

Two specially developed grinders made from tool steel for two different bean varieties. The grinding discs with large diameters work fast, producing even and finely ground coffee. For the best aroma!

Practical weekly planner

Ready for any situation: the weekly planner regulates fresh filtering in line with demand, ensures coffee is not left to stand in the urn for long and schedules cleaning.

Urn

If you know that you will have a large demand for fresh filter coffee then you can keep a few cupfuls ready in the urn and avoid keeping your guests waiting unnecessarily.

Clean in Place (CIP®)

It couldn't be easier: fully automatic cleaning of the brewing and milk system directly in the machine. Nothing has to be removed or taken apart. It's as simple as that: quick, safe and certified hygienic.
